To date, **Inspire Mexico Foundation** and **iluminame** continue to join forces, demonstrating the great results we can achieve by collaborating hand in hand with the resident organizations of the Youth Center.

Since our opening, **Amigos de los Niños (ADLN)** has conducted six dental clinics, assisting 720 children, in collaboration with 24 volunteer pediatric dentists, who make it possible to carry out these clinics.

Many of these dentists have already made several volunteer trips to Los Cabos, motivated by their love for our children and amazed by the facilities and organization of each of ADLN's clinics. Upon returning to their country, they highly recommend ADLN to other pediatric dentists to join the mission. They tell us how impressed they are with Iluminame's beautiful Youth Center and the generosity of providing it to carry out these clinics.

The **Boys and Girls Club of BCS (BGC BCS)** is an organization that seeks to provide children with additional activities outside of school in a safe, supportive, fun, and enriching environment that inspires them and enables them to reach their full potential.

Currently, they offer 28 programs to 320 children aged between 6 and 18 years old, in addition to the participation of 12 volunteers and the BGC BCS team, who make it possible to conduct workshops such as: boxing, soccer, karate, dance, toy library, mathematics, English, ecology, chess, tutoring, and their special program: Agents of Change.

Because we remain committed to sharing with the community the Healthy Living program: BGC BCS members learn about the importance of a balanced diet and its relationship with their physical and mental development, and they put into practice skills that enable them to maintain healthy eating habits that help prevent diseases.

For this reason, we are very excited and started preparing to begin with the farm project in the Youth Center!

Thank you for your ongoing support and commitment to making all of this possible!

We are looking for NGOs that want to be in the Youth Center, please contact us if you are interested. We have a space for you!
