

To date, Inspire Mexico Foundation and Iluminame continue to join forces, demonstrating the great results we can achieve by collaborating hand in hand with the resident organizations of the Youth Center and the people of Los Cabos.

Active Summer!

We started regular fall activities at our Community Youth Center, and it was a summer of diverse learning experiences for the beneficiaries of our resident organization, The Boys & Girls Club of BCS.

Over several days, more than 70 children and youth participated in a wide range of workshops such as crafts, dance, boxing, math, English, chess, and tutoring, each offering a unique opportunity for growth and discovery.

This fall, we will implement more workshops at our Community Youth Center since The Boys and Girls Club of BCS has more than 28 different programs available for children and young people.

Thanks to your support, we continue to grow and provide development spaces to the youth of Los Cabos who need it most.

A New Chapter

On behalf of the entire Inspire Mexico Foundation and Iluminame team, we welcome the new Executive Director of Iluminame A.C., Euridice Hernández. She is originally from Mexico City and has been a Los Cabos resident for over seven years. Since her arrival, she has collaborated with local organizations, programs, and projects in fundraising, corporate social responsibility, public relations, administration, and development.

We are very excited to begin a new chapter in our organization's history and look forward to making new projects and dreams come true for the benefit of the youth in our Los Cabos community. Welcome Euridice!

Dental Clinic in October

We want to announce that the seventh ADLN dental clinic will be held at our Community Youth Center in October. Our gratitude goes to ADLN and its team of 24 volunteer pediatric orthodontists, who make this possible.

Since the first dental clinic in February 2023, more than 1,000 beneficiaries have received dental services at our facilities. Thank you very much for your dedication and service to improving the health of the children and youth of Los Cabos.

Comunicabo is here!

We are thrilled to announce that Comunicabo is joining the resident organizations of our Community Youth Center. Comunicabo is an organization that provides speech and language therapy services focused on normalizing the lives of children with cleft lip and palate. Through its early stimulation program, it also provides emotional support and education to parents of babies with cleft palate.

We will soon have more news about Comunicabo's activities and achievements at our Community Youth Center!

We will soon have more news about Comunicabo's activities and achievements at our Community Youth Center!

Thanks to your support, we continue to grow and provide development spaces to the youth of Los Cabos who need it most.
